

Objects To "Intrusion" of Serbia

King Francis Joseph, of Austria-Hungary, whose country is strongly opposed to the occupation by Serbia of territory bordering on the Adriatic sea, which has been taken from Turkey in the recent successful onslaughts made by the allies.

MULE KICKS BABY; TWO MEN INJURED

Two New Mexico papers change ownership; Lad catches big bobcat near Tularosa.

Tularosa, N. M., Nov. 18.—Valencia, the 2-year-old daughter of Max Horn, living near Bard City, this county, was seriously injured by being kicked in the face by a mule. The child was taken to Kindee for treatment.

J. R. Borden, of near Grady, south of this city, was brought here by a team for a broken jawbone and other injuries; the result of his team running away and upsetting upon him several barrels filled with water which he was hauling for household use. The team became frightened as a result of a broken line.

T. P. Goodrich, from the northern part of the county, is convalescent from injuries received from falling backward off a load of feed, striking his back upon a post.

Minnie Beasley, 16 years old, living near the county line west of here, is displaying the skin of an immense bobcat, which he trapped in the hills near his home. He laid, whose father is a blacksmith, became imbued with the wish to become a trapper, with the foregoing success. He is said to hold the minimum age record as a successful trapper in this vicinity.

Two changes in the ownership of newspapers in this county took place last week. W. C. Simpson, a recent arrival in the state, having purchased the Montoya Republican from W. C. Haykin, and W. R. Stekman, formerly of Tucuman, having bought out the Logan Leader plant, owned by Paul Jones, of Nara Vista.

JACK FROST & CO. ON THE JOB MONDAY

Bit of Moist, Chilly Atmosphere is followed by Landscape and Roof Decorations in White.

Atmospherically speaking, El Paso's much touted fine fall weather is a frost, or was early Monday morning. There was a nice, white top coat of the J. Frost & Co. brand of art decoration over the prevailing landscape. It was dissipated by friendly sun, who has been the visitors' appreciation over the weekend.

As a weather bill, the past two days have had more spice than was really required to make the visitors appreciate just how fine the regular weather was when it was not so much as the weather was. Saturday was a blinding of a rain, with all the pipes working overtime. Col. Lane, being perfectly acquainted with a weather of all kinds, says it was only .55 of an inch. "A little more than half an inch of precipitation," he says, just that was. His dealings with the weather are purely in a professional capacity up there in the skyward of the southwestern building. Hence he has no appreciation of a trifle like .55 of an inch, when it is spread over a large and growing city in great gobs and when he is not forced to hike through the inundated streets or sail a stormy sea around the Mills building corner.

Sunday was some better, but not much. The rain made a desperate effort to come back Sunday morning in time for services, but failed and quit like a piker. Instead, the wind continued on the job and made heavy sweaters and gray flannel shirts more appropriate than a hotted front and a Sunday shine. The sun failed to appear after the discouragement of Saturday and the greater part of the population of this place of plenty remained indoors and soaked up the heat from friendly fireplaces. It was the nearest approach to formal winter weather El Paso ever experienced and it was enjoyed as much in the commission as it is by omission on the bright days.

Sunday night was a nippy night, with emergency calls for more covers. It was a fine night for porch sleeping and the going was good from the gang. Monday morning it was a few degrees above the absolute, which is three degrees warmer than the lowest point on the mercury tube this season, although none of the three degrees were noticeable at the usual ariling hour. The frost was due as much to the continued protection as to the cold, for the weather office says that the freezing point has been reached in the hills, but no frost has yet been forthcoming because of the low dew point in this dry climate. These low temperatures would have resulted in a killing frost had they occurred in a moist climate, the weather office says, but being here, in this zone of climatic perfection, it was not much.

Fair, warmer, and spore of it, is the weather that is wished on this community for the remainder of the week. All thanks for the weather are deferred until a week from Thursday, that being the official day of thanks. Snow fell in the Franklin range Sunday and could be seen plainly from Alta Vista. It was beyond the first big peak and could be seen when the clouds lifted. This is the first snow of the winter in the mountains. A snifter of snow is said to have fallen in El Paso Saturday.

HAS NEVER SEEN OCEAN; GOES NOW

Mesilla Valley Pioneer Makes First Trip to the Gulf of Mexico and Sees Ocean for First Time.

W. N. Hager, of Mesilla Park, has just returned from a trip to the Gulf of Mexico. Although a man well advanced in life, he has never seen the ocean. Having recently sold his ranch to Americans for pasturing Mexican cattle, he decided to take a run down to the gulf of Mexico and see what an ocean of water looked like. He has been so busy for many years that he did not have the time to go. He has been making money rapidly; in fact, has accumulated a fortune and is now a question of money with him, but merely a question of time. He never felt that he could spare the time until now.

Mr. Hager came to this section with the Santa Fe railroad as the first agent of the road at Mesilla. He saw the opportunity for buying some of the then very cheap land and raising alfalfa. He resigned and bought the land, and, instead of being a Santa Fe employee, he has been one of his biggest sleepers in recent years. Mr. Hager was born in an interior middle western state and had never visited the sea coast before coming to the Mesilla valley, and as he has never had the time since coming to this section, his present trip to Corpus Christi is his first chance to see a bigger body of water than a river, though he is past middle age.

KARAKULES DOING WELL IN KANSAS

L. M. Crawford Says He Lost Some of the Lincoln Sheep, But Not One of the Karakules by Moving Them.

L. M. Crawford, owner of the Crawford theater and a lot of upper valley land, arrived in El Paso yesterday on business. Mr. Crawford says the Karakule and Lincoln sheep he took from the El Paso valley to his ranch near Topeka are doing well, although exposure killed a number of the Lincolns when they first reached Kansas. His means to continue raising half-blood Karakules there—an industry started in the El Paso valley by Dr. C. C. Young—the rams to be sold for breeding purposes and the ewes to be killed for their skins. There has been a considerable increase in the herd since it was moved to Kansas, and the climate now seems to be agreeing with the animals. Mr. Crawford says; it never seemed to either the Karakules very much, but the Lincolns suffered somewhat at first.

ITCHING HUMORS

Try This Remedy at Our Risk. People sometimes say, "Well, that new remedy of yours, Saxo Salve, may cure recent cases of eczema, but I doubt if it will help me for I have had eczema a long time."

The fact is, Saxo Salve was devised as much for chronic skin troubles as for acute cases, and it is equally effective, though usually the chronic cases are more stubborn. Numbers of cases right around here could be cited, showing that Saxo Salve is exactly the remarkable soothing and curative remedy for skin diseases that we claim.

The itching is stopped in a few moments after the first application, and improvement is seen in a few days. All humors and disorders of the skin, whether scaly, crusted or in the very first stages, usually yield to Saxo Salve promptly. If it does not, in your case your money will be returned. Kelly & Pollard, Druggists, El Paso, Texas. Adv.

NEAL INSTITUTE PERMANENTLY LOCATED IN EL PASO

Neal Institute Company, of Des Moines, Iowa, capitalized at One Million Dollars, Opens Branch in El Paso.

The "Three Day Neal Treatment" for the Drink Habit the Only Successful and Permanent Cure.

Cured of the morbid craving for strong liquor in Three Days and forever freed from bondage—this is the marvelous work now being performed by the Neal Method.

The Neal Three Day Cure is the ideal treatment for the habitual as well as the periodical user of intoxicating liquor.

Having been in use in 32 Neal Institutes throughout the United States, Canada, Australia and New Zealand, the Neal Treatment has proven its absolute superiority over all so-called "Liquor Cures" and stands to-day preeminent and unrivaled in its line. It differs radically from all other treatments for the drink habit in the following particulars: First: It is an absolutely harmless, vegetable remedy. Second: It is a short, direct treatment—no painful, dangerous hypodermic injections being used. Third: It requires only three days time to destroy absolutely the appetite and craving for alcoholic drinks. Fourth: No bad after effects have ever resulted from its treatment.

Every Case Is Curable. It is now a settled scientific fact that alcoholism is not a disease, in any sense of the term, but a poisoning that creates an appetite and superinduces a desire and craving for more liquor. This theory is amply supported by the fact that the Neal Treatment never fails to effect a perfect cure in any case of the periodical, habitual or nervous drinker, no matter how long he has been drinking or to what depth of degradation he has fallen. It cures each and all in just THREE DAYS, without hypodermic injections.

The results of the Neal Treatment are simply wonderful. It will sober up the patient in less than 24 hours after taking the first dose of medicine and at the end of three days the patient can and will return to his family, business and friends, a new and well man or woman, as the case may be. Unlike other cures that take up the much time for a busy man, this cure is accomplished in three days, and even the best friends and family need not know that the patient has been absent other than on a short business trip.

The Neal Treatment is administered at the Neal Institute, No. 915 Mesa Ave. Only Three Days—no more, no less—are required to effect a permanent cure and during those days the patient is afforded the comforts of a refined home in strictest privacy, yet without any restraint whatever. A legal contract is given to the patient to effect a perfect cure in Three Days. Results are absolutely certain. For full information write or call.

THE NEAL INSTITUTE OF EL PASO, TEXAS. No. 915 Mesa Ave. Phone No. 4642. Adv.

REBUILDING FORT STOCKTON JAIL

Courthouse is Also Being Rebuilt and the Two Will Be the First of New Buildings in the City.

Fort Stockton, Tex., Nov. 18.—The Falls City Construction company has started rebuilding the old county jail and courthouse and has torn down the roof of the old courthouse. They are rebuilding the walls of both and the complete reconstruction of the work there will be two buildings the equal of which there are none in the county. The commissioners' court is now in session, Judge J. M. Odum, presiding. This is the last meeting of the old county jail.

Postmaster W. N. Fowler has received a letter from the fourth assistant postmaster general, practically assuring him that the rural route for the irrigated lands district will be established. Mrs. F. M. Edwards are happy parents of a fine boy, born last Saturday.

U. T. Chamberlain, formerly from Santa Fe, is assisting sheriff Barker in the duties of his office.

Mr. and Mrs. A. V. Ward, of Wellington, Kans., are looking for investments and will spend the winter in Fort Stockton.

F. E. Gillet, of Alpine, was here looking after his interests in the firm of Mitchell & Gillet.

Tom Sanderson is here from his ranch and will remain several days in the city.

W. C. Jackson, of this place, has gone to El Paso to represent the commissioners' court in the court of civil appeals in the courthouse junction case.

ORDERS FOR STEEL INCREASE; RAILROADS ORDER MORE CARS

New York, N. Y., Nov. 18.—Greater interest was shown in the railroad steel last week, contracts being placed for an aggregate of 27,000 tons, including about 9000 tons of railroad steel.

The railroads were most active in placing contracts for cars, more than 10,000 being ordered during the week. The largest orders included 4000 cars for the Chesapeake and Ohio, 3000 for the Southern Pacific, 2000 for the Delaware, Lackawanna & Western, and 1000 for the Chicago, St. Paul, Minneapolis & Omaha. The principal locomotive contracts came from the Chicago & Northwestern, including 100 for the main line and 25 for the Chicago, St. Paul, Minneapolis & Omaha.

One of the most interesting developments was the placing of a contract for 40,000 tons of billets, plates and shapes by the Canadian Car & Foundry company, and the same interest is negotiating for 40,000 tons of steel for the Canadian Car & Foundry.

FAIL FROM TRAIN IS FATAL TO GOODWELL YOUTH. Dalhart, Tex., Nov. 18.—Alvin Black, the young man who was injured a few days ago at Goodwell, Okla., and who has been in a sanatorium here, died as a result of his injuries. His remains will be buried at his old home in Pittsburg, Kans.

Mr. Black was 22 years old and was a student of the Goodwell, Okla., high school. He was brought out by others, came to Guyman a few nights ago to a social affair, and was pulled into the regular train at Goodwell, climbed to the top of a box car on a passing freight train. On attempting to alight as the train was pulling into Goodwell, he was thrown from the car to the ground, his head striking the rails. His legs were mutilated to such an extent as rendered amputation necessary. His death was due to his skull being fractured.

PUT FISH IN RIO RUBISCO. Rubisco, N. M., Nov. 18.—James Scott, of Capitan, N. M., brought out 10,000 fish and put them in the Rio Rubisco. He was accompanied by Mrs. Scott and little son, Wal.

ALAMOGORDO REVIVAL TO CONTINUE A WEEK
Week of Missions to be Observed With Special Services in Alamogordo Presbyterian Church.
Alamogordo, N. M., Nov. 18.—Announcement has been made that the revival service which has been in progress at the South Methodist church will continue during the week. The pastor, Rev. Geo. H. Gilman, has been doing the preaching, but it is probable that he will be assisted during this week. Services are held at a clock in the afternoon and 7:15 at night.
Home mission week will be observed this week, commencing at the First Presbyterian church in this city, and will end next Sunday. The following program has been arranged:
Monday, 7:30 p. m.—"American Indians, Africans, Asiatics."
Tuesday, 7:30 p. m.—"The Frontier and Island Possessions."
Wednesday, 7:30 p. m.—"Immigrants."
Thursday, 7:30 p. m.—"Rural Regions and Cities."
Friday, 7:30 p. m.—"American Social Problems."
Sunday, 11 a. m.—"Our Country's Opportunity for Christ." 7:30 p. m.—"Unity in Making Our Country God's Country."
All of the subjects will be discussed and the exercises conducted by Rev. J. A. Armstrong, pastor of the church.
Mrs. Ellen Beck, state secretary of the Woman's Board of Missions, addresses a large congregation at the Christian church in this city Sunday morning and afternoon, on her work and mission.
The business interests of the city are aroused to some extent over the recent action of attorneys for the insurance companies in defeating the payment of policies on the New Mexico sanitarium, which was destroyed by fire during the past year. Under the laws of this state this was done on technicalities.
The sanitarium policies are not the only ones that have been defeated by technicalities at this place.

BOY'S CONFESSION LEADS TO ARRESTS
Prominent Business and Professional Men Held at Portland—Y. M. C. A. Worker Takes Poison.
Portland, Ore., Nov. 18.—Fourteen men, a number of them prominent in the business and professional life of Portland, are under arrest as the result of an investigation set in motion by the confession of a boy arraigned in the delinquency court. More arrests are promised by the prosecuting attorney.
W. H. Allen, prominently connected with Y. M. C. A. work in this city, is in a local hospital suffering from the effects of poison, said to have been taken by him when he learned that his name was connected with the investigation.
Dr. Harry A. Start, is in jail in default of \$5000 bail, but Dr. F. H. Podman, was released on his own recognizance. Others in jail are men holding positions of trust in business houses, and the exposure has caused profound amazement. Every effort has been made to keep the arrests a secret but the finding of Allen in his room, near the hospital, was the first publicity of the affair. One of these known to be in jail is "Gipsy Rigo," the violinist who eloped some years ago with the perfessing chimney.
Six of those arrested are said to have confessed and to have implicated many others. Several boys, to whose delinquency the men arrested are alleged to have contributed, are being held as witnesses.
Put a porous plaster on the chest and take a good cough syrup internally if you would treat a severe case of sore lungs properly. Get the dollar size BALLARD'S HOREHOUND SYRUP. With each bottle there is a free HERRICK'S RED PAPER POROUS PLASTER for the chest. Sold by Scott White & Co., three stores.

POSTPONED GAME IS BEING PLAYED
Owing to the heavy rain Saturday, the football game between the Military Institute team and company 1 of the signal corps was postponed until this afternoon when the game will be played at the Military Institute instead of at Washington Park.
Next Saturday the Military Institute team will play the second team of the New Mexico A. & M. at Washington Park.
The high school teams which were to have gone to Mesilla Park and Deming on Saturday did not go. The A. & M. games canceled by coach Badenow, and the Deming school could not raise the money to pay the other team's expenses.
FIRST SNOW OF THE WINTER VISITS NACO
Naco, Ariz., Nov. 18.—The first snow of the season made its appearance Sunday. It came with the cold wave which hit here the night before.
The chance of a snow on the El Paso & Southwestern, which goes into effect on Wednesday, will enlarge the duties of the force at this point and also necessitate the addition of one or more men here. The morning train, west bound, will arrive just after the one from the east, and the east bound evening train, which now arrives at five p. m., will not arrive until 2:45, necessitating the placing of a night operator and ticket clerk.
CANANEA CATTLE COMPANY MAKES BIG SHIPMENTS
Naco, Ariz., Nov. 18.—The Cananea cattle company has made its first shipment of cattle for this season, consisting of 10 carloads of steers, cows and calves for immediate slaughter. They were sold to Cadahy and company and shipped to Los Angeles, Cal. Eight cars more will be shipped to the same firm at Kansas City, Mo., Tuesday. These cattle are all in fine shape, fresh off the northern Sonora range, and the range is in excellent condition this year. In fact, better than for several seasons past.
